

Restore Files 24/7

You can access your backup files whenever you want.

Who wants to wait when they have just lost important information? With iTekLogic, your backup files are always available to you. All that is required is an Internet connection and a few moments, and you can breathe easy again knowing that your data has been restored.

iTekLogic allows you to access your backup files whenever – and however frequently – you want. You can restore files individually or simply restore everything, depending on your needs. If you need something specific, you can use iTekLogic's convenient search feature to find it quickly and easily.
