

About iTekLogic

Have you ever considered how you would be affected if you lost everything that is stored on your computer? iTekLogic helps you avoid this type of crisis by providing quick, painless, and efficient online backup services.

What is online backup?

Imagine how much easier your life would be if you could back up your computer data without even thinking about it. This convenience is exactly what iTekLogic provides. iTekLogic's online backups start automatically, accessing your computer's files via your Internet connection. Your backup files are stored on servers in two separate locations, eliminating the risk of losing your information via a natural disaster, and providing you with access to the files at any time of the day or night. Moreover, your information is perfectly secure from prying eyes, as the files are encrypted using a 256-bit encryption key that is unique to your account.

Why are backups important?

If you think about it, most of the information stored on your computer is irreplaceable. Whether it's digital photos of your family or customer information for your small business, your computer's hard drive is full of files you can't afford to lose. iTekLogic offers online backup for the home and online backup for your business.

Why is online backup better than other methods?

You may already be backing up your data using another method, such as tapes, CDs, or a removable hard drive. Although these methods are better than having no backups at all, they cannot compare to the convenience and security of backing up automatically to an offsite storage facility. Still not convinced? Keep reading to find out more about the benefits of online backup.

How does online backup work?

iTekLogic is an automated online backup system, meaning that all you have to do is set your preferences and let the system do the work. Every time the system backs up your files, the data is compressed, encrypted, and stored on servers in two different locations. The result is an easy, safe backup system that you have access to around the clock. If this nutshell explanation doesn't satisfy you, keep reading to learn more about how iTekLogic online backup works.

What other features does iTekLogic offer?

iTekLogic's online backup services are designed to make backing up your files as easy and secure as possible. In addition, our services allow you to decide details such as what gets backed up and how much storage space you need.

How much do iTekLogic's services cost?

iTekLogic service plans start as low as \$11.95 for personal use and \$24.95 for businesses. To determine what type of plan you'll need, check out our complete listing of online backup service plans. If you're still not sure, you can try iTekLogic for free with our no-obligation, 30-day trial.
